Mr. S.M. Navgire,

Mrs.D.B. Bhosale

Convener : Mr.N.A. Tupsamindar

(tupsamindar85@gmail.com)

Co-Convener: 1) Dr. L.P. Chikhale, 2) Mr.H.M. Paikekar

**Objective of Workshop:**

The main goal of this workshop is to facilitate the students, researchers and faculty members to learn new and advanced teaching methods in Mathematics. Now a days the uses of teaching techniques in Mathematics has become one of the important parts of research. Because of this knowledge it is easy to attain the practical applications of the subject. It provides a good platform for new graduate students to learn Mathematical applications. The students, research scholars and faculty members from mathematics, statistics and such sciences can participate in the workshop.

**Vision of the Institute:**

We envisage India as a nation of erudite, astute, intelligent, strong and healthy citizens. Our institution will be a hub of knowledge, imparting technical and professional skills along with imbuing a sense of commitment to values and ethical conduct. The rural youth,-boys and girls shall acquire global competence while being aware of their roots. Our students shall uplift themselves, their family, society and nation.
