3.4.1 Outcomes of Extension activities in the neighborhood community in terms of impact and sensitizing the students to social issues for their holistic development during the last five years.

The college is dedicated to holistic development and community engagement. Various departments actively organize extension activities to build strong ties with the neighboring community and sensitize students to their needs. Our vision is to achieve Comprehensive Development through education.

The students play a pivotal role in these endeavors, engaging in social service activities that contribute significantly to their overall growth. They lead initiatives addressing a range of social issues such as cleanliness drives, tree plantation efforts, water conservation projects, AIDS awareness campaigns, blood donation camps, and health check-up events.

On International Yoga Day, the NSS and Sports departments collaborated to conduct yoga and breathing exercises. These sessions taught various techniques of yoga-pranayama, promoting mental and physical well-being. Additionally, in partnership with the Hedgewar Blood Bank in Solapur, a successful blood donation camp was organized, with 25 generous donors contributing. The NSS also conducted an AIDS awareness program and a health check-up camp, benefiting 137 staff and students.

During the COVID-19 pandemic, the college took proactive measures to support its students and the community at large. Recognizing the hardships faced by families, the institution provided essential rathan kits (food supplies) to those struggling for their livelihoods. This act of benevolence aided 35 students facing challenging circumstances. Special Camp and its activity conducted in 93 Akhil Bhartiya Marathi Sahitya Sammelan.

A significant initiative of the institution is the "Farmers' Counseling Center," established to provide crucial support and guidance to farmers in the drought-prone Osmanabad district of Maharashtra's

Marathwada region. Unfortunately, this region has witnessed a rise in cases of farmer suicides in recent years. The center's efforts not only offer counseling but have also successfully prevented suicide attempts among the farmers. In response to the pandemic, the center distributed 66 bags of millet seeds to the needy farmers.

The Department of Chemistry played a vital role in the fight against COVID-19 by preparing and distributing hand sanitizers. Additionally, the Department of Sports organized an online workshop focusing on Yoga, Use of QR Code in teaching learning process, District level students Selection Camp for Disaster Management (AVHAN) Meditation, and Breathing techniques to promote mental and physical well-being during these challenging times.
